HOLDS UP PART OF PAVING

Alderman McDonald Gets in His Check on the Improvement Rush.

AFFECTS SECOND BATCH OF STREETS

Work Contemplated in District West of Main Street Indefinitely Postponed by the Council After Much Debate.

Alderman McDonald, representing the Fourth ward, carried his point at the meeting of the city council last night and the contract with B. Wickham for the paving of the streets lying west of Main street, was on his motion laid on the table. It was this resolution which embraced the streets which the abutting property owners desired to have paved with asphaltum, instead of brick, and the action taken last night is understood to mean that none of these streets will be improved this year. The motion was carried by the vote of Alderman Huber, Lougee, Lovett and McDonald. Alderman Hoover, Brown and Clark voted against it. Alderman Hammer is out of the city.

Before this action was taken a number of petitions from interested property owners were read. The trustees of the Lutheran church on South Seventh street, with a frontage of 192 feet, asked for asphaltum. The Catholic church, with a frontage of 248 feet on Sixth street and a frontage of 240 feet on Fifth avenue, asked for brick. The Sisters of Charity in charge of St. Francis Xavier's academy, which has a frontage on Seventh street of 288 feet and on Fifth avenue of 192 feet, petitioned that their streets be paved with brick. A numerously signed petition by property owners on First and Fifth avenues, Sixth, Seventh and Eighth streets, asked the council to reconsider the former action and order these streets paved with asphaltum instead of brick.

Approve Wickham Contract.

After considerable discussion and a strong fight on the part of Alderman Lougee to have the matter postponed for a week the contract with B. Wickham for the paving of the group of streets embraced in the first resolution was approved and the mayor instructed to sign same. Before the contract was approved, however, the original motion awarding the contract to Wickham was reconsidered and then amended so as to make the putting in of a cement filler optional with the council. The original motion provided for the cement filler on all streets ordered paved, with the exception of North Main street. The contract was amended to correspond.

Alderman McDonald suggested that the putting in of the cement filler be made optional with the council, as he was not satisfied that it was a good thing. He and other members of the council had been over to Omaha where they had seen a street on which the filler had been used, and it did not come up to their expectations. M. F. Rohrer also addressed the council, urging that the cement filler be cut out as a useless expense. He also urged that the contract on the grounds that the cedar block paving there is still in good condition. He further intimated that if it was not the abutting property owners would appeal to the courts.

Lougee objected to the form of the bond in the contract, which he said he did not consider sufficiently binding on the contractor. In several motions that he made in an effort to secure a postponement until next week of approving the contract, he failed to secure a second.

Seven Divisions.

The contract is divided into seven separate contracts as follows: Bryant street, North Second and North First, from Broadway to Washington avenue, bond \$2,500. Seventh avenue from Main street to Sixth street, North Third street from Main street to Fourth street, Ninth avenue from Main street to Third street, Tenth avenue from Second street to Third street, bond \$2,700. Washington avenue from Harrison street to Main street produced, bond \$2,500. North Eighth street from Broadway to Myner street, North Seventh, North Sixth and Scott streets from Broadway to Washington avenue, bond \$3,000. Pierce street, from Third street to Stutsman street, Stutsman street from Broadway to Pierce street, bond \$500. North Main street from Broadway to Washington avenue, bond \$500. Broadway from the Twelfth street to Indian creek bridge on Thirteenth street, bond \$1,000.

With the exception of North Main street and Broadway all the streets are to be paved with brick. The contract provides that the council Bluffs brick lower course at \$1.57 per yard. Main street is to be paved with Council Bluffs brick both courses at \$1.36 per yard. Broadway is to be paved with single course Des Moines brick on concrete base at \$1.50 per yard. The contract provides that the work shall be completed within ninety days and that the work shall be guaranteed for five years.

Beck of Omaha presented claims of ten Omaha citizens who were in a car that was overturned on Broadway on the night of July 15, the accident occurring near the Illinois Central crossing. VOTERS MAY NAME SENATOR

Scheme to Give Iowa Republicans Chance to Express Choice.

PROPOSITION TO HOLD PRIMARY ELECTION

Two Men in Des Moines Fight Duel With Knives and Are Badly Wounded—Boy is Run Down and Killed by Motor.

DES MOINES, July 23.—(Special Telegram.)—Along the line of giving the republicans of the state a chance to express themselves on the senatorial question outside of the regular methods, it has been proposed to hold a primary election on the regular election day in November, at which time voters might specify their choice. Some republicans say it would be the best means of obtaining the true situation as to the rank and file vote. They say a voting booth could be erected alongside or near the general election booth and the same judges and clerks could act, hence there would be slight expense. Just what will be done in the premises cannot be foretold.

Mr. Sagin, who is a well known bridge contractor, still insists that the combination among the local brick men and that the price at which the city council awarded the contract is too high. He said yesterday: "I do not desire to attack the contract, but will prevent if possible the city paving Washington avenue in front of my property at the price named in the contract with Wickham. I own property on both sides of the avenue and consequently will have to pay for the entire paving in front of my lots, which have a frontage of about 200 feet. If the city will let the portion opposite my property I will not interfere further. If allowed to I will pave that portion myself and I can do it at a cost of \$1 per yard. There are others besides myself opposed to the contract as awarded and from fifteen to twenty other property owners have signified their intention of intervening in the suit."

Searching for Mary Thompson.

The police were notified and a thorough search of the river bank and vicinity was made, but nothing could be seen of the young woman. The persons who saw her and reported the matter to the police said that as soon as she noticed the police she was being watched she ran and hid herself.

Another search will be instituted and if the young woman is found she will be taken before the insanity commissioners, as Chief of Police Albra is of the opinion that she is not of sound mind. He regrets now that she was not taken before the board in the first place after being captured in Fairmount park.

TAMMANY'S NIGHT TO HOWL

Boss Croker Prepares set of Bryan Resolutions for His Braves to Swallow.

NEW YORK, July 23.—At a meeting tonight of the Tammany Hall general committee a series of resolutions on motion of Richard Croker were adopted, in effect as follows: Tammany Hall believes in the supremacy of the American flag wherever it floats, but that it should float nowhere as the symbol of liberty and civil servitude combined, for the flag of combination which only works dishonor to the flag and American institutions.

It believes in that character of territorial expansion which was favored by the father of our country, and which has resulted in the shedding of American blood on soil where the American constitution can never follow the flag of combination which only works dishonor to the flag and American institutions.
